**ARB Approved**

**Installation, Operation and Maintenance Manual**

for

Executive Order

VR-203-B  
(VST Phase II EVR System)

Approved: January 14, 2008

## NOTICE:

The **ARB Approved Installation, Operation and Maintenance Manual (IOM) for VR-203** describes the tools, methods, and skill levels required to install the **VST Phase II EVR System, not including ISD**.

Unless specified in Executive Order VR-203 or this IOM, only skilled technicians that are trained, certified, and licensed by VST, Inc. (i.e. VST Authorized Service Contractors) are able to perform installation, maintenance, or repairs of components manufactured by VST Inc. or the warranty will be void.

It is the responsibility of each VST Authorized Service Contractor (ASC) to be familiar with the current requirements of state, federal, and local codes for installation and repair of gasoline dispensing equipment.

It is also the responsibility of the VST ASC to be aware of all the manuals, necessary safety precautions, and site safety requirements to assure a safe and trouble-free installation.

To participate in a VST training class, a candidate will need to complete an enrollment form, which can be downloaded from the VST website at [www.vsthose.com](http://www.vsthose.com) or requested by phone at 937-704-9333. Once the enrollment form is approved by VST, the candidate can enroll in a VST training class. A schedule of classes is also available on the above VST website.

To confirm a VST Authorized Service Contractor status, a regulator can go to the VST website at [www.vsthose.com](http://www.vsthose.com). This list is updated periodically.
